Gerflor solutions at Giant Steps Private School

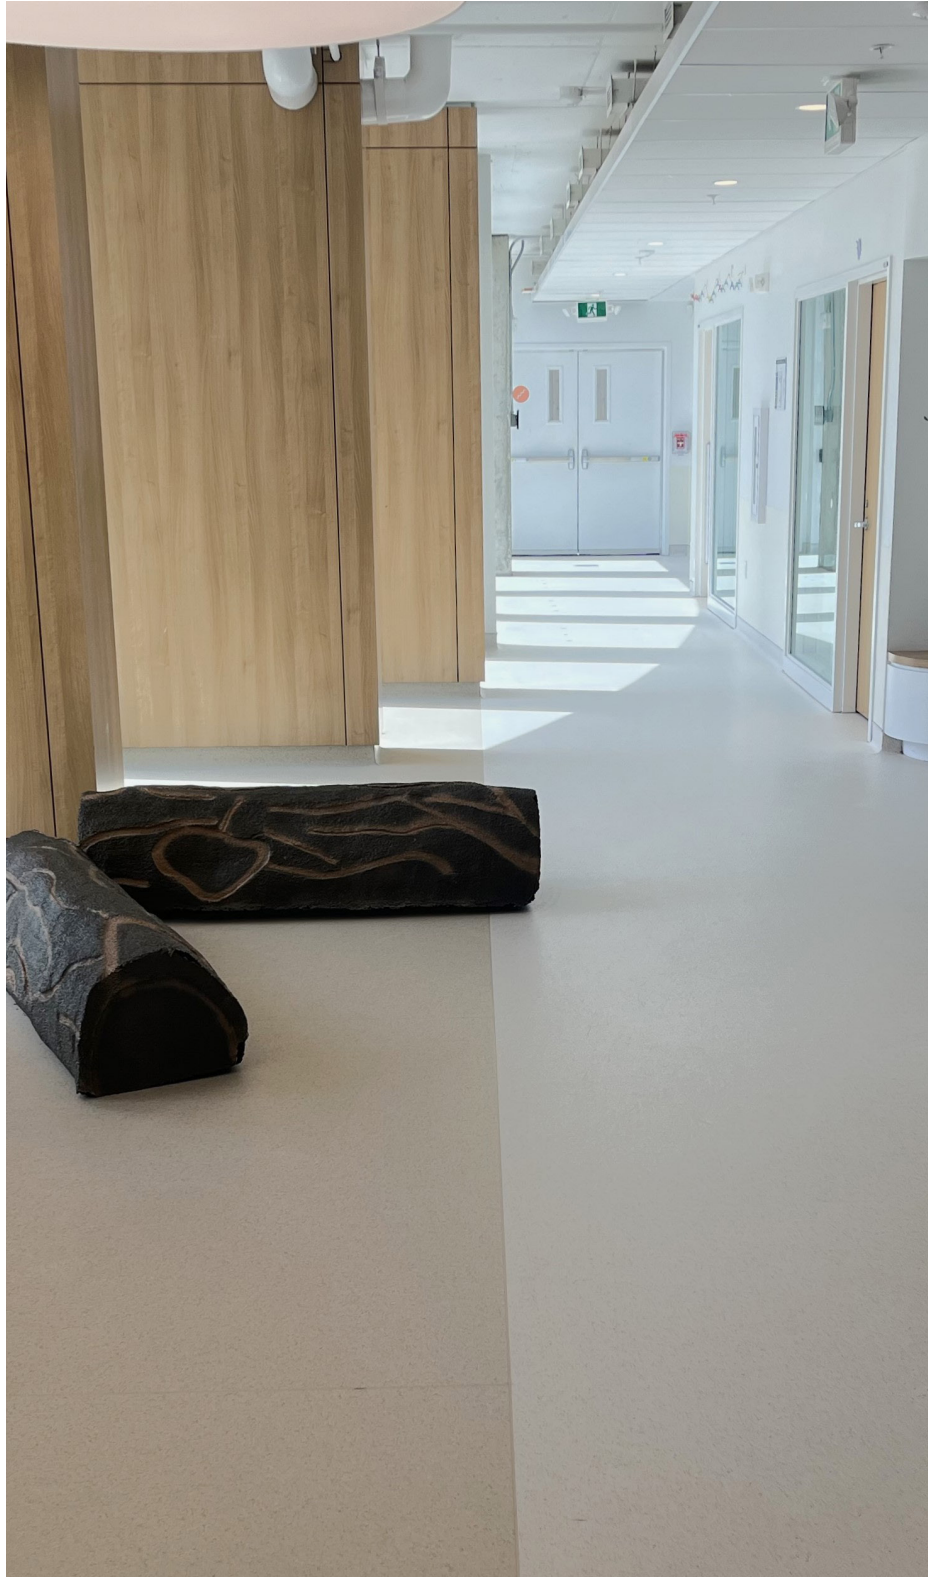

Giant Steps Private School welcomes children with special needs. The goal of the interior renovation was to create a warm, calming, and stimulating environment aligned with the school's mission.

Vibrant colours help energize the space, while durable materials ensure a safe, healthy, and low-maintenance setting adapted to daily school life.

The combination of **Mipolam Affinity - 4401 Quartz** and **4404 Milkshake** with brighter **Taralay Impression** tones, such as **0873 Matte Blue** and **0849 Matte Sun**, delivered a flooring solution that is both resilient, easy to maintain, and visually engaging.

These products were chosen for their ability to withstand heavy use while supporting a motivating and child-friendly visual environment.

The new flooring helped transform the school into a safe, colourful, and thoughtfully designed environment, perfectly suited to the needs of its students. The combination of high-performance materials and purposeful design has created spaces that are both functional and inspiring.

Classrooms and common areas are now equipped with surfaces that support movement, play, and learning, while contributing to a welcoming and structured atmosphere. Staff and students alike benefit from improved comfort, clear spatial organization, and a setting tailored to their daily routines.
