Gerflor solutions at Marguerite-Bourgeois Elementary School

Recently rebuilt and inaugurated as a “new generation” educational institution, Marguerite-Bourgeois Elementary School was designed to offer a modern and innovative learning environment. The renovation aimed to combine contemporary architecture with durable and high-performance materials to support the school's dynamic educational approach.

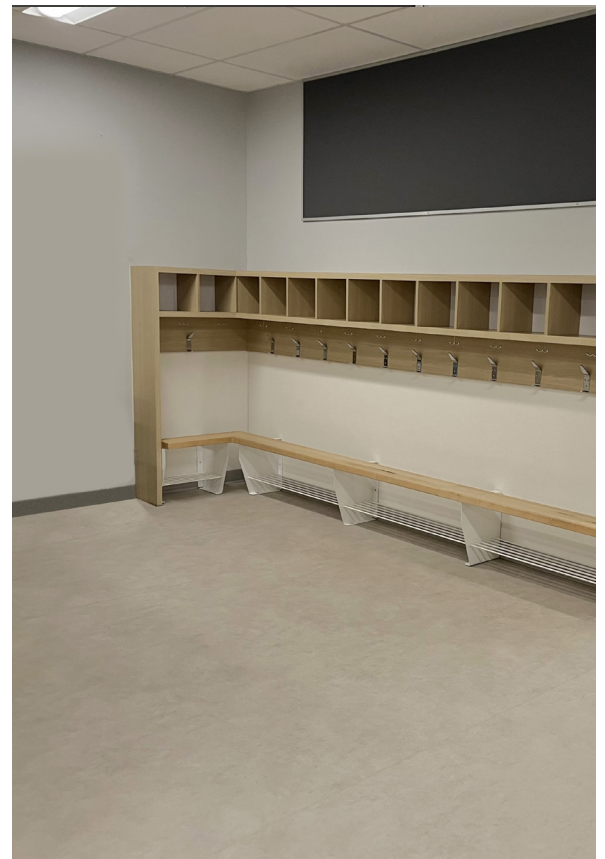

The flooring selection centered on the **Taralay Impression** collection, valued for its versatility, durability, and wide range of design options. The **1026 Cemento Roma** design was installed in the main circulation areas, offering a sleek, concrete-inspired look that perfectly balances modernity with practicality. Accent zones were enhanced with the wood-look **0720 Infinity Aube**, complemented by vibrant colours from the **1083 Uni Matt Navy** and **1078 Uni Matt Indigo** ranges.

Ideal for modern educational spaces, **Taralay Impression** offers a durable, low-maintenance flooring solution that stands up to heavy daily traffic. Its ProtecSol® surface treatment ensures lasting resistance to scuffs and stains, while the variety of designs supports both functionality and creative interior expression.

The installation of Gerflor flooring transformed Marguerite-Bourgeois into a safe, comfortable, and inspiring environment. The blend of neutral base tones and vivid accents fosters a dynamic educational atmosphere while ensuring durability and easy maintenance — essential for the heavy daily use typical of a school setting.
