Gerflor solutions at Sentiers Elementary School

This newly built elementary school was designed to prioritize innovation, sustainability, and student well-being. Careful material choices were made to ensure high standards of performance, durability, and indoor comfort, while supporting a dynamic and inspiring learning environment.

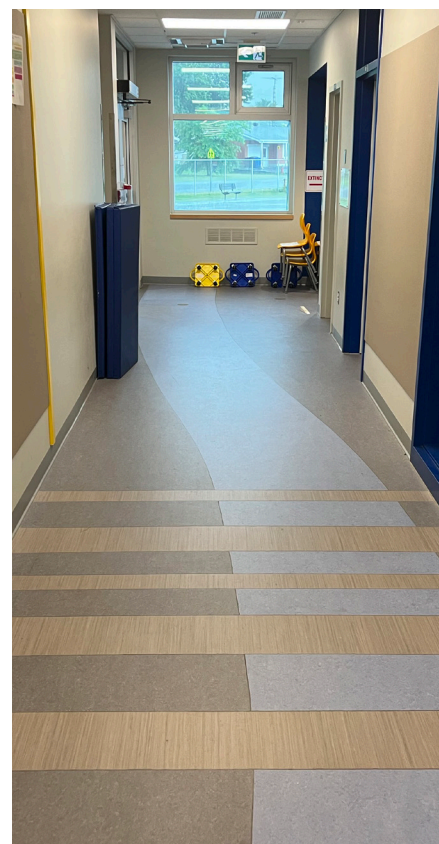

The main corridors were finished with **DLW Landscape - 0050 Quartz Grey**, a natural linoleum known for its exceptional durability, ease of maintenance, and contribution to indoor air quality. Accent colours such as **0023 Dusty Blue**, **0001 Lemon Yellow**, and **0100 Frog Green** were used strategically to define areas and bring vibrancy to the space.

The school interior offers a welcoming and functional space that supports both learning, movement, and well-being, thanks to natural materials and a carefully selected colour palette.

The gymnasium was equipped with **Recreation 60 – 6058 American Oak**, a multi-purpose sports flooring that offers excellent shock absorption, slip resistance, and long-term durability — ideal for active school environments.
