Gerflor solutions at St. Nicholas Catholic Elementary School

St. Nicholas Catholic Elementary School was built to merge two existing schools and better serve a growing school community. The new facility is designed to accommodate 527 students and features modern spaces, including a fully equipped gymnasium.

For the gym flooring, the project team selected Gerflor's **Recreation 60** for its durability, comfort, and performance in active school environments. The primary colour, **6062 Canadian Maple**, was used to create a warm, traditional sports floor look, while **6563 Menta** was added as an accent to define zones or bring a dynamic visual element.

For further information on Gerflor's extensive range of flooring solutions, please contact us:
