Gerflor solutions at the Le Petit Campus Daycare

Le Petit Campus Daycare opened a new early childhood education centre in Trois-Rivières to offer a safe, comfortable, and engaging environment for young children. The design emphasized durability, hygiene, and acoustic comfort—key priorities for childcare facilities—while maintaining a warm and natural aesthetic that fosters a welcoming atmosphere.

To achieve these goals, Gerflor **Creation 55** in **0851 Bostonian Oak Honey** was installed over **Gerflor Smartfix Underlayment**, covering a total of 7,035 yd². This high-performance LVT flooring combines the elegance of natural wood with exceptional resilience for high-traffic areas. The **PUR+ Matte surface treatment** ensures easy maintenance, superior resistance to stains and scratches, and long-term protection.

The new daycare features a comfortable flooring system that offers excellent acoustic insulation, helping to create a calm and pleasant environment for children and educators.

With its combination of wood-inspired design, durable construction, and low-maintenance performance, **Creation 55** provides Le Petit Campus Daycare with a sustainable and long-lasting solution perfectly suited to the needs of a modern childcare setting.
