TARALAY IMPRESSION, TARASAFE ULTRA | 738 yd²

RACINE, QC | 2025

Gerflor solutions at Magimo Daycare

CPE Magimo opened in 2025 as a new, modern daycare designed to provide a safe, stimulating, and welcoming environment for young children in Racine, Québec. The project incorporated creative flooring design elements to support playful learning while ensuring durability, hygiene, and comfort throughout classrooms and activity areas.

Gerflor supplied a combination of **Taralay Impression** and **Tarasafe Ultra** to meet the daycare's performance and design needs. **Taralay Impression**—installed using **Nature Oak Clear (1055)**, **Uni Matt Light Green (1082)**, and **Uni Matt White (0848)** across **686 yd²**—was selected for its warm aesthetic, acoustic comfort, and excellent durability in high-activity childcare environments. The use of contrasting inserts allowed the design team to create playful patterns and functional zoning within classrooms.

In wet and high-risk areas, **Tarasafe Ultra Opal (8701)** was installed over **52 yd²**, providing enhanced R12 slip resistance, waterproof performance, and hygienic, low-maintenance safety for washrooms and transition zones.

The new **Magimo Daycare** now features a bright, engaging, and safe flooring system that enhances both learning and daily activity. The creative use of **Taralay Impression** adds visual interest and supports child-friendly space organization, while Tarasafe Ultra ensures secure footing in wet areas.
