## Gerflor solutions at the City of Lévis - Municipal Garage

In 2025, the **City of Lévis** renovated the office and cafeteria areas within its municipal garage to improve comfort, functionality, and long-term durability. The project required a flooring solution that could be installed quickly with minimal disruption to daily operations while offering strong performance in a demanding, high-traffic municipal environment.

Gerflor's **Attraction Harlem Soft (2740)** was selected for its fast, floating installation system and outstanding performance in demanding spaces. Attraction tiles can be installed without adhesives, significantly reducing downtime and allowing the space to remain operational. The product offers excellent resistance to wear, easy maintenance, and a modern aesthetic suitable for both office and cafeteria settings.
