Gerflor solutions at David Leeder Middle School

In 2024, David Leeder Middle School undertook a renovation of its gymnasium to upgrade the existing athletic floor and better support daily physical education classes, school sports, and extracurricular activities.

Gerflor's **Sport M Plus** was selected for its proven performance in school gym environments. **Maple (6381)** colour was installed over **652 yd²**, providing a classic gym aesthetic, excellent ball rebound, and Class 2 shock absorption. **Blue (6430)** was installed over **147 yd²** to create visual contrast and define activity zones, while maintaining consistent performance across the entire playing surface.

The renovated gym now features a resilient, safe, and visually engaging sports floor designed for long-term use.
