## Gerflor solutions at Dorset Drive Public School

Dorset Drive Public School undertook a gymnasium renovation to enhance the quality, safety, and functionality of its physical education space.

Gerflor's **Recreation 60** was selected to meet both performance and design requirements. **Canadian Maple (6062)** was installed over **237 yd<sup>2</sup>**, offering a classic wood-look aesthetic, shock absorption, and ease of maintenance. **Oceano (6614)** was installed over **55 yd<sup>2</sup>** to create visual contrast, define activity zones, and improve overall layout clarity.

The renovated gym now serves as a vibrant and versatile space for student activities. With its durable, safe, and visually appealing surface, **Recreation 60** supports daily use while contributing to student well-being and long-term performance.
