Les solutions Gerflor à l'École Publique Roberta Bondar

The gymnasium at Roberta Bondar Public School was renovated to refresh a heavily used athletic space and improve safety and performance for daily school activities. The project focused on upgrading the existing floor with a resilient sports surface designed to support physical education programs and long-term use.

Gerflor's Recreation 60 was selected for its proven performance in school gym environments. Canadian Maple (6062) was installed over 663 yd², providing a classic wood-look appearance, Class 2 shock absorption, and enhanced underfoot comfort. Oceano (6614) was installed over 74 yd² to introduce visual contrast and help define activity zones while maintaining consistent performance across the floor.
